
MATERIAL SAFETY DATA SHEET XENUM OIL STOP ATNI BURN

1 – IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

Preparation:

Name: Oil Stop Anti Burn
Product Code: XP0005

Normal use:

Reduces abnormal consumption, improves compression, restores the action of neutralizing additives and antioxidants.

2 – COMPOSITION/INFORMATION ON INGREDIENTS

Hazardous substances present on their own.

(present in the preparation at a sufficient concentration to give it the toxicological characteristics it would have in a 100% pure state)

This preparation contains no hazardous substance in this category.

Other substances representing a hazard:

No known substance in this category present.

Substances present at a concentration below the minimum danger threshold.

ZINC DIALKYL DITHIOPHOSPHATE | Concentration $\geq 0.00\%$ and $< 2.50\%$.

Symbol: Xi R: 36/38

Other substances with occupational exposure limits.

No known substance in this category present.

3 – IDENTIFICATION OF HAZARDS

This product is not classed as flammable. Refer to the recommendations regarding the other products present on the site

This preparation is not classed as hazardous to health by directive 1999/45/EC.

4 – FIRST AID MEASURES

As a general rule, in case of doubt or if symptoms persist, always call a doctor.

NEVER induce swallowing in an unconscious person.

In the event of exposure by inhalation

If a large quantity is inhaled, move the patient into the fresh air and keep hem/her warm and still.

In the event of exposure by inhalation.

Wash thoroughly with soft, clean water for 15 minutes holding the eyelids open.

Refer the patient to an ophthalmologist, in particular if there is any redness, pain or visual impairment.

In the event of splashes or contact with skin.

Remove contaminated clothing and wash the skin thoroughly with soap and water or a recognised cleaner.

DO NOT use solvents or thinners.

In the event of swallowing.

In the event of swallowing, if the quantity is small (no more than one mouthful), rinse the mouth with water and consult a doctor.

If swallowed accidentally, call a doctor to assess the need for monitoring and subsequent treatment in hospital. Show him the label.

5 – FIRE-FIGHTING MEASURES

Not relevant

6 – ACCIDENTAL RELEASE MEASURES

Safety precautions:

Contain and control the leaks or spills with non-combustible absorbent materials such as sand, earth, vermiculite, diatom earth in drums for waste disposal.
Prevent any material from entering drains or waterways.

Cleaning methods:

Clean preferably with a detergent, do not use solvents.

7 – HANDLING AND STORAGE

The regulations relating to storage premises apply to workshops where the product is handled.

Handling:

Handle in well-ventilated areas.

Fire prevention:

Prevent access by unauthorised personell.

Recommended equipment and procedures:

Packages which have been opened must be reclosed carefully and stored in an upright position.

Storage:

The floor must be impermeable and form a collecting basin so that, in the event of an accidental spillage, the liquid cannot spread beyond this area.

8 – EXPOSURE CONTROLS/PERSONAL PROTECTION

Technical measures:

Ensure adequate ventilation, if possible with extractor fans at work posts and appropriate general extraction.
Personnel shall wear regularly laundered overalls.
If this ventilation is insufficient to maintain the concentration of solvent vapors below the exposure limits, wear breathing apparatus.

Exposure limits per 2000/39/EC and 98/24/EC:

Substance in this category unknown.

Safety breathing apparatus:

Where workers encounter concentrations higher than the exposure limits, they must wear suitable, approved masks.

Hand protection:

Protective creams may be used for exposed skin, but they should not be applied after contact with the product.

Due to the solvents present, it is recommended that neoprene rubber or nitrile rubber gloves be worn.

Eye and face protection:

Use eye protectors designed to protect against liquid splashes.

9 – PHYSICAL AND CHEMICAL PROPERTIES

Density	: <1
Acid/base character of preparation	: not relevant.
Solubility of preparation in water	: insoluble.
Vapour tension at 50 °C of volatile constituents	: between 110 kPa and 175 kPa inclusive.
Physical state	: viscous liquid.
Flash point interval	: Flash point >61°C
The pH is impossible to measure or its value is not relevant.	
Self-ignition temperature	: not specified.
Decomposition temperature	: not specified.
Melting temperature interval	: not specified.

Average distillation temperature of solvents contained	: not specified.
Flash point	: 200.00 °C

10 – STABILITY AND REACTIVITY

When exposed to high temperatures, the preparation may release dangerous decomposition products such as carbon monoxide and dioxide, smoke and nitrogen oxide.

11 – TOXICOLOGICAL INFORMATION

The preparation contains no substance classed as hazardous per directive 67/548/EEC.

Exposure to vapors from solvents contained in the preparation beyond the exposure limits stated may produce effects harmful to health, such as:

Irritation of mucous membrane and respiratory system, kidneys, liver and central nervous system.

Symptoms produced will include headaches, numbness, dizziness, fatigue, muscular asthenia and, in extreme cases, loss of consciousness.

Prolonged or repeated contact with the preparation may strip of its natural oil and thus cause non-allergic dermatitis on contact and absorption through the epidermis.

Splashes in the eyes may cause irritation and reversible damage.

12 – ECOLOGICAL INFORMATION

No ecological data on the product itself is available.

13 – DISPOSAL CONSIDERATIONS

Do not pour into drains or waterways.

14 – TRANSPORT INFORMATION

Exempt from transport classification and labelling.

Transport product in compliance with provisions of the ADR for road, RID for rail, IMDG for sea and ICAO/IATA for air transport.

15 – STATUTORY INFORMATION

This preparation was classified in compliance with the directive known as <All preparations> 1999/45/EC and its adaptations

In addition directive 2001/59/EC with the 28° adaptation of directive 67/548/EC (Hazardous substances) have been taken into account.

16 – OTHER INFORMATION

Since the user's working conditions are not known by us, the information supplied on this safety data sheet is based on our current level of knowledge and national and community regulations.

The product must not be used for any purposes other than those specified under heading 1 without first obtaining written handling instructions.

It is all times the responsibility of the user to take all necessary measures to comply with legal requirements and local regulations.

The information given on this safety data sheet must be regarded as a description of the safety requirements relating to our product and not a guarantee of its properties.
